Letter of Reference

To Whom it May Concern,

I am writing this letter on behalf of Scelo Mbatha.

I have known Scelo since he guided my group of tourists on a Wilderness Trail in the Imfolozi Park in South Africa in 2012. Scelo did a great job and so it was a wonderful experience for me and my guests. He knows very well how to deal with dangerous animal encounters, how to interpret nature, but far more important, how to deal with people not familiar with these wilderness settings.

As a result I didn't hesitate to support Scelo to take his first group for people from Disadvantage Background with his own Company uMkhiwane Ecotours in January 2013. I am very glad that this tour was such a success and would like to thank Scelo for all his great commitment.

Therefore I can highly recommend Scelo Mbatha and his special wilderness tours. It's definitely worth to support his efforts to help our disabled people.

Kind regards,

Bernd Pfleger
